

COMPANY GROUP

CRIMTECH 10

Krimtech 10 LLC ("K-10") is a young but actively developing Karelian company founded in 2018. Despite this, taking into account the analysis of the practical experience of employees of various departments of law enforcement agencies, today we have managed to organize the production of innovative products, including in the field of personal armor protection, with original solutions, the analogs of which in Russia, and not only, simply do not exist. Our innovative approach is officially recognized by patents issued for all our products.

SHOOTING ANATOMICAL TARGET "RAM-10"

Anatomical shooting complex, designed for novice shooters and special forces personnel. Allows you to train novice shooters to accurately hit the target in the shortest possible time. The complex is self-sufficient; to check the results of hits, it does not require moving the weapon away from the aiming line and using additional viewing devices.

PRICE: 100,000₽EXW (70% ADVANCE PAYMENT)

ULTRA-LIGHT TACTICAL MODULAR ARMOR SHIELD SPARTA-10

Developed for combat swimmers of anti-terror forces. Has buoyancy close to zero. Due to its lightness, almost 2 times lighter than existing analogues, it is ideal for use by combat swimmers, during high-altitude training, in confined spaces). Set: shield, extra. armor element, lower apron, carrying bag-quick release "Easel".

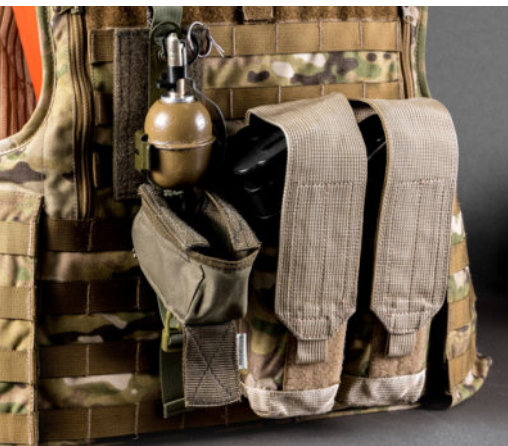

PRICE: 250,000₽EXW (70% ADVANCE PAYMENT)

GARNET POUCH GP-10

Designed for carrying and removing F1, RGD5 grenades with one hand, both for military personnel with confident skills in handling hand grenades, and for poorly trained military personnel. It consists of a soft fabric pouch with a metal platform fixed inside it for rigidly fixing a grenade in it.

PRICE: 3500PEXW (70% ADVANCE PAYMENT)

MINE EVACUATION COLLAPSIBLE CAT MERK-10

Designed for inspecting territories and premises for the installation of IEDs, other mine-explosive devices and their neutralization by assault groups). MERK-10 consists of three main parts and a connecting lock for fastening the rope. Lightweight and easy to assemble/disassemble, does not require any tools.

PRICE: 1200PEXW (70% ADVANCE PAYMENT)
